

POTATO DIGGER

SALIENT FEATURES

- Specially designed transmission for balanced power distribution.
- Wear resistant blades.
- Mud separator cams separate the mud and gives clean potato.
- Strong structure ensures longevity
- Belt/chain can be easily tightened by torquing the tensioner.
- Side belt cover for safety.
- Rear roller helps in easy segregation of potatoes from the soil.

POTATO DIGGER

Potato digger can be used for harvesting potatoes very easily due to its efficient operation & easy mounting on tractor. The Digger ensures that potatoes are lifted from the soil bed and transferred onto webs where the loose soil is separated.
